EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Janik Marcovici on 4/29/05.

The SPECIFICATION application has been amended as follows:

On page 1, line 3, after "9/5/01," -- now US Patent 6,647,707, -- has been inserted.

Drawings

2. The following changes to the drawings have been approved by the examiner and agreed upon by applicant: on Figure 1A, "567" should be -56T—to agree with the specification on page 28, 1st full paragraph. Furthermore, 56T will be added to Figure 1G for greater clarity. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance: applicant's arguments filed 03/21/2005 are persuasive regarding the prior art of record. To further amplify on claim 7, support from the specification regarding the starter cartridge base configuration is found on page 28

"In the embodiment shown in FIG. 1A, the starter cartridge, 56, has a

Art Unit: 3746

unique shape of the starter cartridge base, 56B, such that the shape of the base forms a toroidal recirculation region, 56T (seen best in FIG. 1G), for the air and fuel, to help stabilize combustion, after the cartridge with the combustible casing has burnt out. In alternate embodiments, the base of the cartridge may have any other shape, including a low-cost flat shape.”

For claims 1, 2, the starter cartridge in the combustion chamber section is not fairly taught in permissible combination with the rest of the claim limitations as Lee et al do not use two or more independent compressor spools.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
